|---------------------|-----|--------|------------|
| Basic in C/C++/Java | | | Power BI |

PROJECTS

GameFing Learning Platform with AI Chatbot and Automatic Test Generation

📅 2025 📍 Shegaon

Developed Gamefing, an AI-powered learning platform featuring an interactive chatbot for personalized learning and automatic test generation to enhance student engagement and assessment.

AI Voice Cloning Platform

📅 2025 📍 Nashik

Voice cloning is the process of creating a digital replica of a person's voice using artificial intelligence. This synthetic voice can then be used to generate speech that sounds like the original speaker, based on just a few seconds or minutes of audio.

Internship Providing website

📅 2025 📍 Nashik

Built a web platform to connect students with internship opportunities.

Book Selling Website

📅 2025 📍 Nashik

A responsive book selling website enabling users to browse, search, and securely purchase books online.
